在 submit 之后，进入第二个页面，填写成绩等相关信息。前半部分样例如下，后半部分按个人实际情况填写。

[TAMURUC2018BS] Department of Statistics, Texas A&M University

Welcome 测试.周. Please answer the following questions to complete your application for this program. After your application is made, it can be edited or withdrawn using this same form (accessible from the "Status" menu). Program institutions will have access only to the documents you select on this screen, plus your current Standard Coversheet. Your submission is successful only if you see the "Thank you for updating your application" screen right after submitting this form. The total size of all the files selected to be uploaded here should be less than 10MB, or submitting this form will result in an error; if that happens please upload them onto your Portfolio one by one first. Most unsubmitted data in this form is saved automatically inside your web browser if possible (you can also save the data onto the server to make it accessible from another computer after login), and you can come back to submit it later. Current system time is Sat May 12 10:45:58 2018.
